

## GRANT KIDD

B.Sc., P.Eng., LEED® AP

Associate, Senior Mechanical Engineer

### EDUCATION

Mechanical Engineering, University of Manitoba, Winnipeg, Manitoba, 1990

### PROFESSIONAL INVOLVEMENT

LEED® Accredited Professional, USGBC

U.S. Green Building Council, XXXX

Member, American Society of Heating, Refrigerating & Air-Conditioning Engineers

With over 20 years experience in the mechanical engineering industry, Grant has focused his extensive consulting experience on large institutional and commercial projects including health care and laboratory projects, post-secondary facilities, and airports. Grant has taken a leadership role in sustainable design and health care in Calgary which includes the first acute care LEED® project in Western Canada (Peter Lougheed Centre East Tower). He also assumes project responsibilities from conceptual design through construction and warranty periods.

Grant is a key team member in DIALOG's Calgary studio and is experienced in system design concepts, life-cycle costing and best practices, mentoring and guidance, quality control, and commissioning. With his extensive knowledge he continually pushes the envelope of sustainable design concepts that have practical application for efficient energy utilization and meet the needs of the client.

### SELECTED PROJECT EXPERIENCE
